② ③ ④								② ③ ④							

IMPORTANT - Read down the left hand column before moving to the right hand column

①

DESCRIPTION of model, Option Table, important notes, date of introduction or important modification. In the case of imported cars the date is that of introduction to the UK. CO2 emissions (if the CO2 emissions have changed for the plates displayed then a range will be shown)

②

GLASS CODE is a unique identifier for each vehicle model

③

MPG DETR Combined Fuel Consumption Figures

④

COST NEW From 1999 the first registration line is a January price, the second a March price and the third a September price. Delivery charges are included. Where a car is normally equipped with a principal optional extra, the cost new will include the cost of that extra.

⑤

INSURANCE + MILEAGE

- 28 New ABI Insurance group rating (Groups 1-50)
- 14 ABI Insurance group rating (Groups 1-20)
- 2M Mileage Group, please refer to the mileage tables at the end of the Guide

⑥ ⑦ ⑧ ⑨ ⑩

⑥ ⑦ ⑧ ⑨ ⑩

IMPORTANT - Read down the left hand column before moving to the right hand column

⑥

GLASS RETAIL (Guide Condition) – the basic Retail or actual selling value. Glass Retail must be adjusted for mileage and also for condition which does not conform to that listed on page 11. The retail figure is inclusive of a used car warranty and valet. In the case of most cars under 3 years of age the balance of manufacturers' warranty would also apply. Cars of this age are also assumed to be sold with an extended warranty governed by the manufacturer's used car programme.

⑦

YEAR OF REGISTRATION From 1999 the first registration line is for a car registered in January, the second line for March and the third for September.

⑧

MILEAGE (in 000s) for which the basic values are quoted. Our average car is assumed to cover 12,000 miles each year for the first three years of its life and 8,000 miles for the next three years and then 6,000 miles each year thereafter. Please note: Certain exotic cars do not conform to the above but are assumed to cover 6,000 each year.

⑨

GLASS TRADE (Guide Condition) - the basic Trade or buying value is for a car in average condition for the year. Glass Trade - must be adjusted for mileage and also for condition which does not conform to that listed on page 11. Trade values are the basic values when buying a single unit for stock for retail sale. They are neither cashing out prices nor part exchange prices. The basic values assume that the service history and V5 documents accompany the car.

⑩

£s +/- This is the actual movement between last month's GLASS TRADE and this month's GLASS TRADE. This applies to the oldest/latest trade value only.

NEW CAR PRICES

Delivered Price comprises list price of the vehicle, VAT and delivery charge (where levied), but excludes first registration fee and vehicle excise duty.
