DESCRIPTION OF MODEL

DATE OF INTRODUCTION OR IMPORTANT MODIFICATION

In the case of imported vehicles the date is that of introduction to the UK.

COST NEW Is exclusive of VAT (exceptions are Motorcaravans and 7-seater Station Wagons, which are inclusive of VAT). Between 1994 and 1998 the registration line for each year shows the cost new as at March. From 1999 the first registration line is the January price, the second a March price and the third a September price.

MILES/KMS (000s) Mileage figures appear for Top, Standard and *Disposal condition. For vehicles above 3.5 tonnes distances are displayed in kilometers.

CONDITION In the lightweight section of the Guide two sets of values are provided for each model. These sets of values are known as TOP and STANDARD condition. STANDARD condition represents the majority of vehicles with average mileage while TOP condition represents the cleanest vehicles with low warranted mileage.

*Only light commercial vehicles display mileage figures.

GLASS RETAIL Is the basic Retail or selling value exclusive of VAT (see VAT Regulations section for exceptions). Retail values must be adjusted according to the condition of the vehicle. **In the lightweight section we provide two values – TOP and STANDARD.**

DATE OF REGISTRATION Where only one registration letter is shown, the vehicle is assumed to have been registered in June of that year. From 1999 the first line relates to January, the second to March and the third to September.

GLASS TRADE Is the basic Trade or buying value exclusive of VAT (see VAT Regulations section for exceptions). Trade values must be adjusted according to the condition of the vehicle. They are not auction prices, cashing-out prices or part exchange prices. **In the lightweight section we provide two values – TOP and STANDARD.**

DISPOSAL - Reflects a trade sale for a van or chassis in an unprepared condition primarily coming from a fleet source. These vehicles will typically require a significant amount of cosmetic work to bring them up to retail condition, yet must still be presented to a standard that reasonably meets the requirements of roadworthiness. For hard used vehicles where the condition falls well below this standard, an adjustment will have to be applied to the Guide Disposal value.

NEW LCV PRICES

List price comprises the list price of the vehicle and delivery charge (where levied), but excludes first registration fee, vehicle excise duty and VAT unless stated otherwise.
